Component and Video Surveillance Solutions

Pioneering Solutions in CCTV
and Component Innovation

Component Range

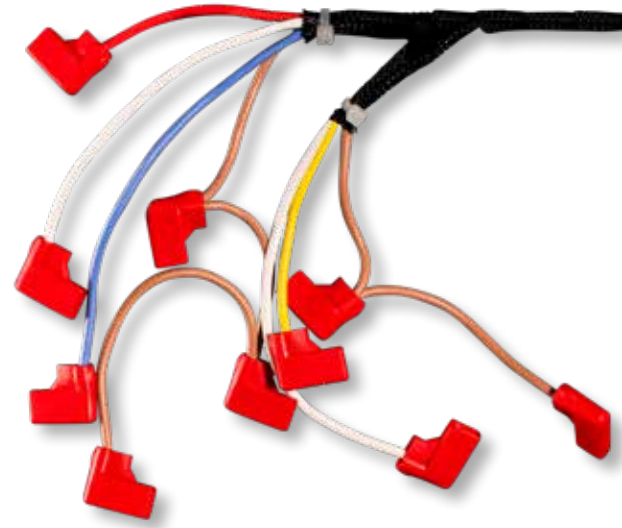

Stortech excels in supplying a diverse range of electronic components, catering to a multitude of applications and industries, and ensuring unparalleled access to the right solutions for your specific requirements.

Core product range:

Cable Assemblies

Offering a wide range of bespoke cables and cable assemblies to meet your individual business needs. Ranging from simple wire harness assemblies to more complex looms with 100+ connections. Over 95% of our cable assemblies are customised, including varying lengths, colours, over-moulds, as well as unique connectors.

- ⊕ certified to industry standard approvals
- ⊕ cost effective solutions, reducing your Total Cost of Ownership
- ⊕ in-house tooling capabilities

Batteries

Stortech delivers a diverse range of battery types and technologies, from lithium battery packs, to standard alkaline cells. We can tailor a solution to power your application.

- ⊕ safe disposal scheme.
- ⊕ high energy density options
- ⊕ customisable battery packs, with cables and connectors

Connectors

Stortech supplies a wide range of connectors, including AC, DC, DIN plugs and sockets, as well as Jack sockets.

- ⊕ variety of branded and unbranded options available
- ⊕ industry specific and relevant approvals available
- ⊕ alternative sourcing capabilities for obsolete parts

Acoustic Products

Stortech supplies a huge range of Acoustic products including miniature Speakers, Microphones and Buzzers. Call our sales team to discuss your requirements.

- ⊕ IP rated options available
- ⊕ in-house assembly capabilities
- ⊕ industry specific and relevant approvals available

Switches & Keypads

Discover Stortech's wide range of switch types and custom keypads. With specialised materials and coatings, including phosphorescent keys you benefit from advanced laser etching and epoxy coatings for enhanced durability.

- ⊕ fully bespoke to match your brief
- ⊕ vandal resistant options available
- ⊕ IP rated options available

Power Adapters

Stortech offers a wide range of Power Adaptors, including switch mode, universal, desktop, In-line and wall-mounted power adaptors. Each adaptor can come with either clip-in country plates or country-specific plugs.

- ⊕ compact and lightweight
- ⊕ country specific/ interchangeable options available
- ⊕ bespoke casings and plastic moulding capabilities

Working with stortech

With our project management services, we take care of every step of the manufacturing process, ensuring seamless coordination between suppliers, engineers, and your team. You can rely on us to handle the intricate details and keep the project on track.

Benefits of our Project and Supply Management:

Tailored Solutions

Our services are customized to your manufacturing specifications, delivering components that precisely meet your application or industry needs.

Customer Service

Our team provides exceptional customer support throughout your project, maintaining open communication and promptly addressing any issues you encounter.

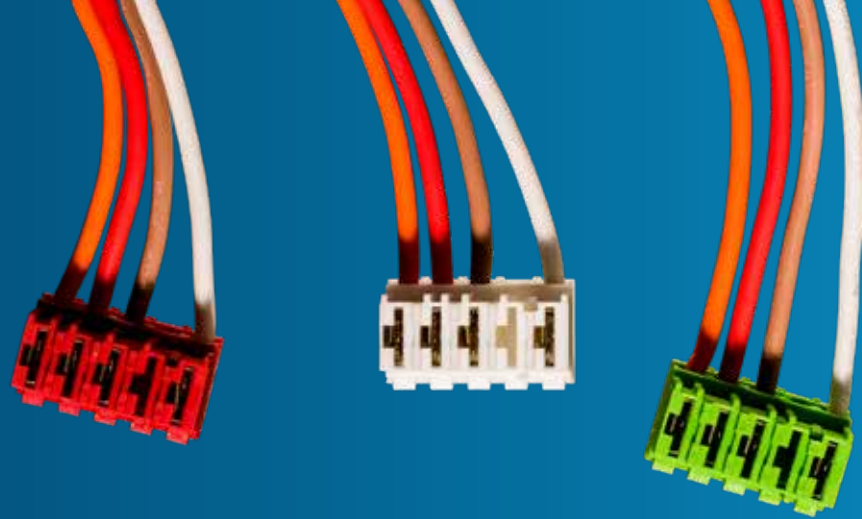

Cost Efficiency

Maximize cost savings through our project management services. We optimize supply chains, streamline processes, and help you achieve your cost objectives.

Quality Assurance

We have stringent quality assurance measures, backed by industry certifications and rigorous testing protocols. We are dedicated to delivering electronic components of the highest quality, meeting and exceeding industry standards.

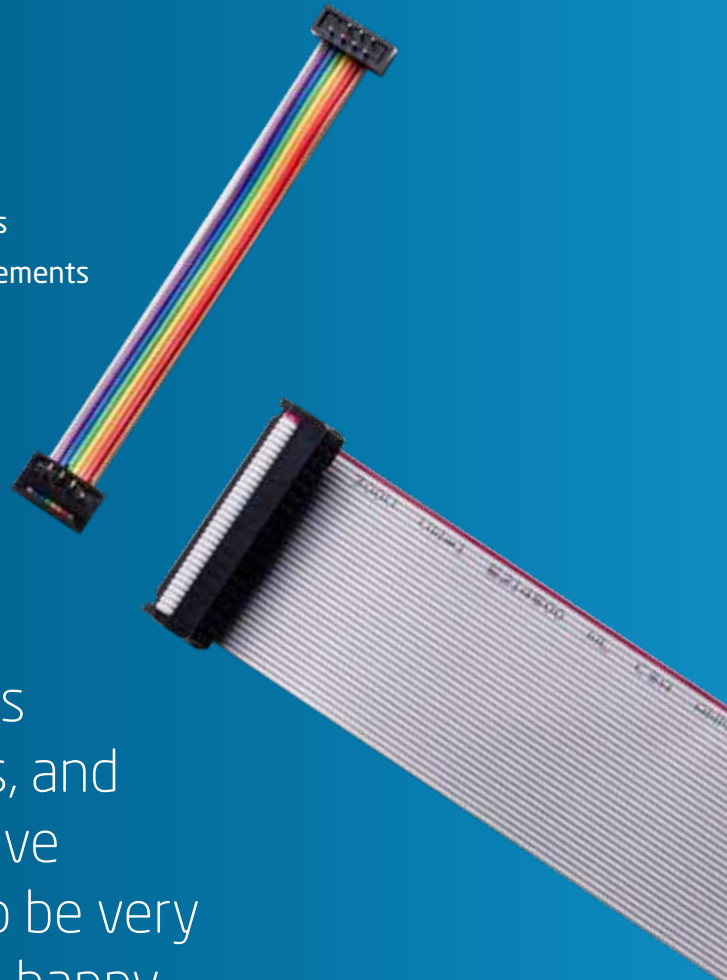

In-House Assembly

At Stortech, we can add wires, strip them or assemble them with tin connectors to any components, as required. This is the case whether the products are sourced via our overseas factories or assembled here in the UK.

Our Capabilities:

- ⊙ Rapid response to sample requests
- ⊙ Proficient in assembly modifications
- ⊙ Expertise in small batch assembly under tight deadlines
- ⊙ Customized assembly solutions tailored to client requirements
- ⊙ Quality control measures for reliable output

Stortech have been providing us with quality speakers, batteries, and switches for over 20 years. I have always found the sales team to be very friendly and helpful and always happy to deal with my enquiries. //

CCTV Range

Stortech offers a wide range of video surveillance products. Irrespective of your fleets specifications our cameras and solutions reshape how you address the challenges of road and passenger safety, claims management, vehicle compliance and operational risk.

Video Surveillance product range:

Analogue Cameras

Stortech offer a large variety of analogue cameras, providing a complete 360-degree coverage and an easy flush-mounted design.

- ⊕ AHD and CVBS Options available
- ⊕ Various lens size options
- ⊕ WDR, ICR True Day/Night

IP Cameras

Supplying a wide range of IP cameras to optimise your fleet Security, and meet the requirements of organisation such as TfL and TfGM. Precision analytics and seamless integration offer heightened peace of mind on the move.

- ⊕ PoE Options available
- ⊕ Various lens size options
- ⊕ WDR, ICR True Day/Night

Monitors

Transform your fleet management with our advanced Onboard CCTV Monitors, delivering realtime insights to fortify security measures and enhance operational efficiency.

- ⊕ Quad screen options available
- ⊕ Touch pad and weather-proof options available
- ⊕ Supplied with mounting bracket

Mobile Recorders

On-board recording is an integral part on a vehicles CCTV system. Stortech's MDVR's offering provides a secure, high-quality hybrid solution.

- ⊕ Built-in AI Algorithms, ie - Driver Monitoring System
- ⊕ Hybrid Recorder - Supports both Analogue and IP
- ⊕ Ruggedised and fully weatherproof

Systems

Stortech offers a comprehensive range of CCTV systems to help you achieve Progressive Safe System (PSS) requirements for your fleet. Encompassing a wide selection of technologies including real time video monitoring, Integrated DMS and 360-Degrees birds eye view.

- ⊕ Solutions to help you meet a PSS
- ⊕ E-mirror solutions
- ⊕ DMS and Passenger counting systems

Accessories

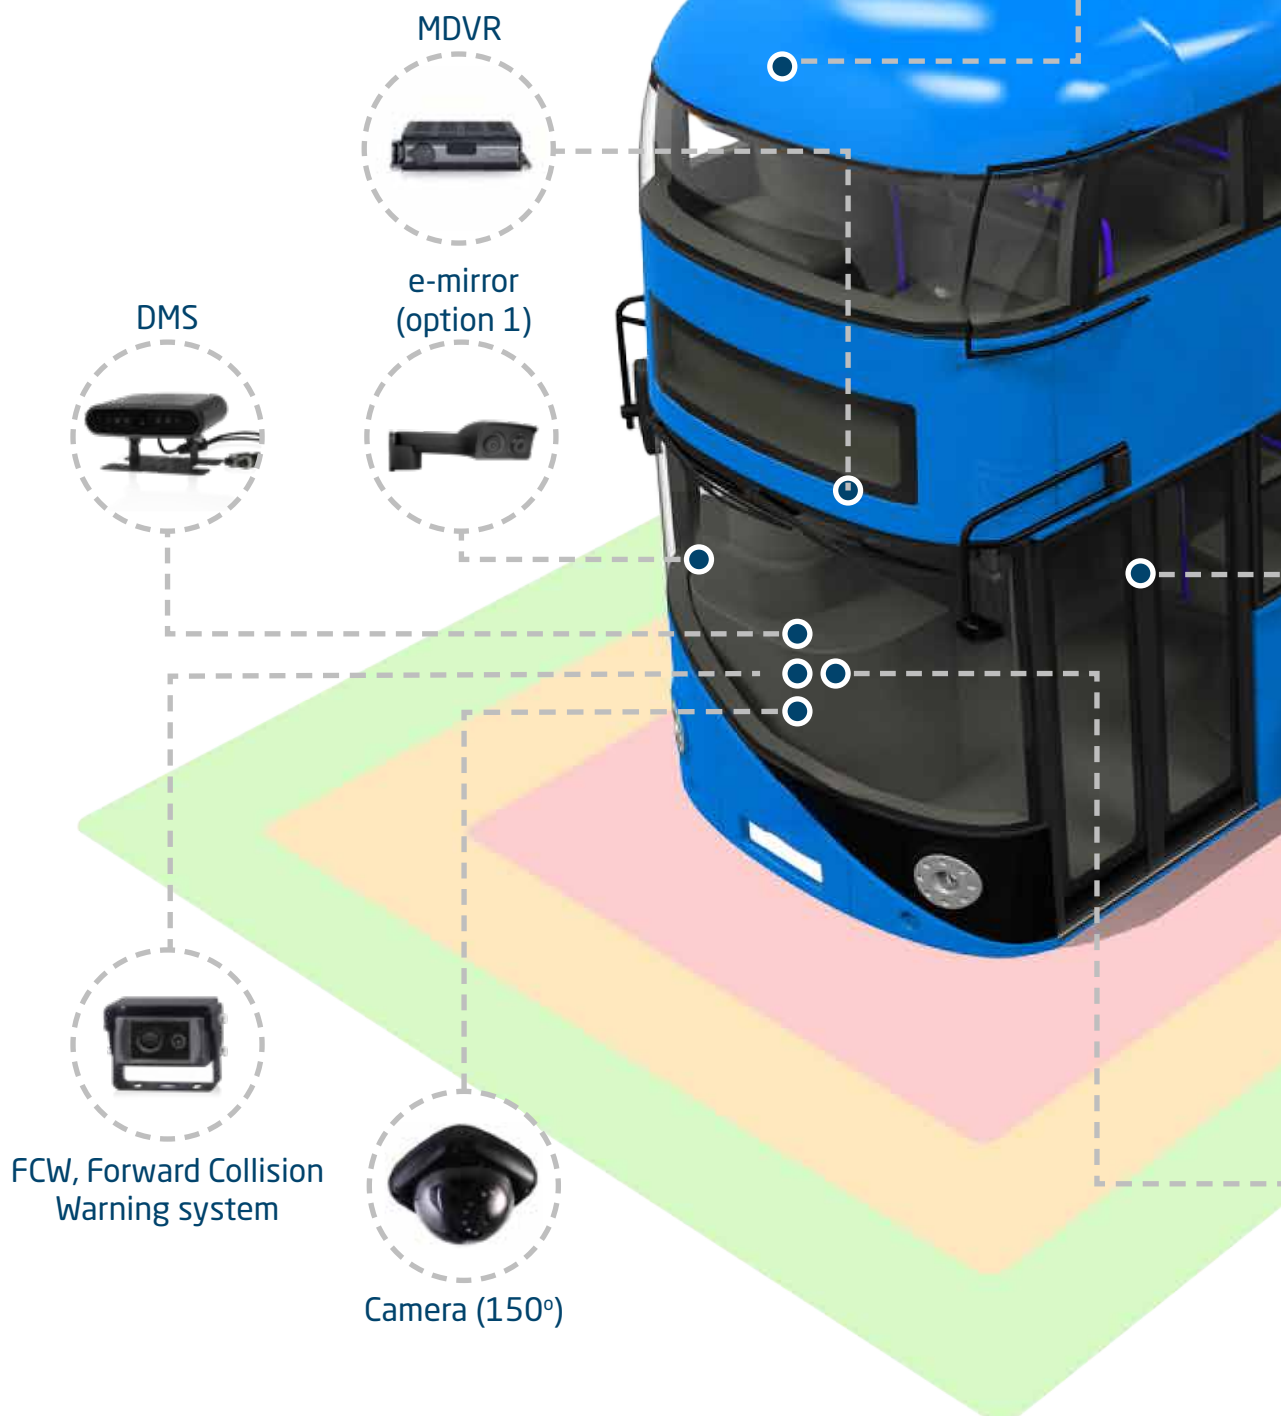

Enhance your surveillance setup with our selection of camera wedge mounts that ensure a seamless set-up for an unobstructed line of view. Customisable cable extensions can be ordered to meet your specific demands.

- ⊕ Industry and vehicle certified cables - R118 Compliant
- ⊕ Customisable wedge material and color
- ⊕ Range of connectors available

Gain 360° Visibility

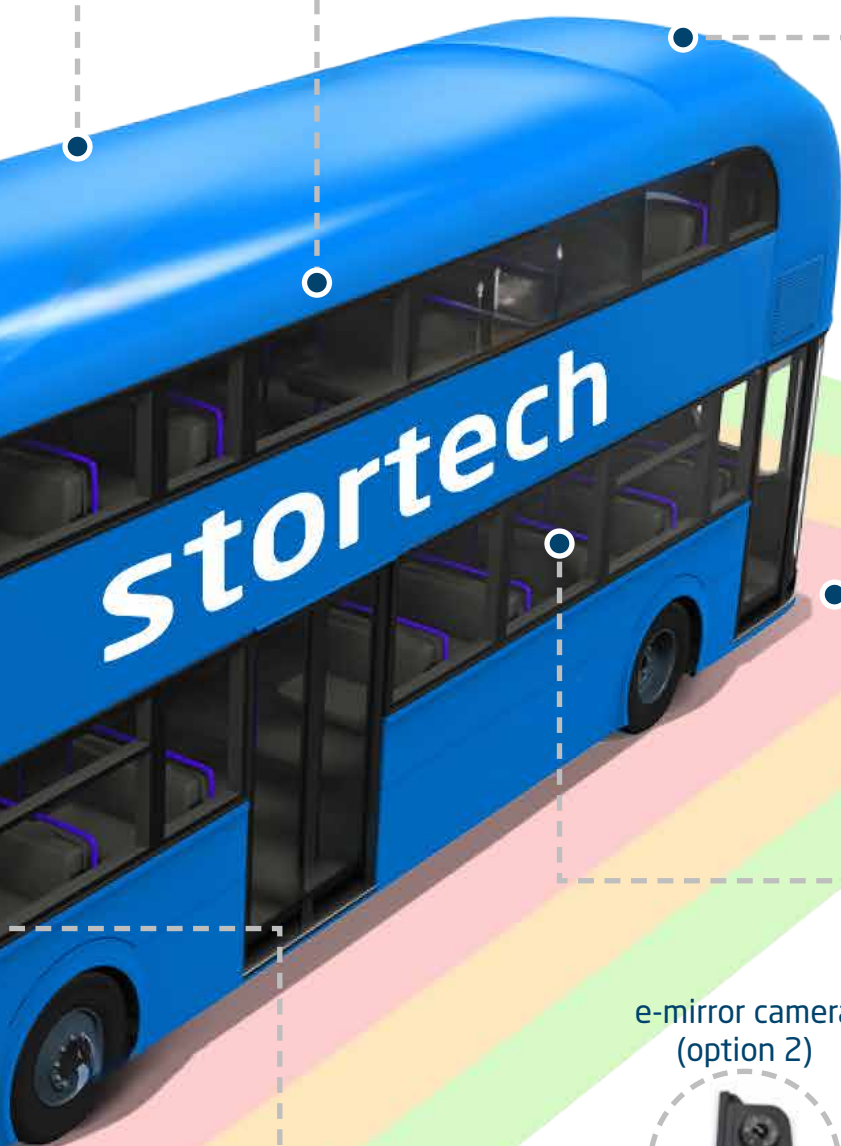

Experience the innovation of Intelligent Pedestrian Detection Camera Systems, by employing AI-powered technology for real-time Detection, we can ultimately aid the protection of passengers, the driver, pedestrians and other road users. This solution is strategically installed on the front, rear, and sides of public service and commercial vehicles, providing a comprehensive 360° vision, and birds-eye view that helps to eliminate blind spots.

Industry Certified

Committed to excellence: At Stortech we ensure all our products meet stringent industry standards and certifications, emphasising quality and reliability for our customers.

Helping You Achieve a Progressive Safe System - PSS

Our products and solutions will assist our customers in ensuring their vehicles meet the requirements of the new Progressive Safe System.

DMS

The Driver Monitoring System, assesses the driver's behavior by looking at for example, mobile phone use, tiredness, smoking and many more.

Blind Spot Detection

E-mirrors, not only reduce the drag and improve fuel efficiency. More importantly remove the blind spots in and around the drivers cab and doors.

360° Birds Eye View

By linking four-cameras together the systems will give a complete view of the area around the vehicle, eliminating blind spots.

Forward Collision Warning

The three-zone user selectable warning system will alert the driver of any objects getting too close to their vehicle (speed dependent).

Safe Reversing

Creating guidance lanes and a three-zone obstacle warning system that will make reversing not only safer but give added confidence to the driver.

“

We have been working with Stortech for nearly 10 years now and nothing is too much trouble. Fantastic products, in particular the cameras and the footage quality. Delivery is fast! Would highly recommend 10/10. ”
